

RIFT VALLEY NATIONAL POLYTECHNIC

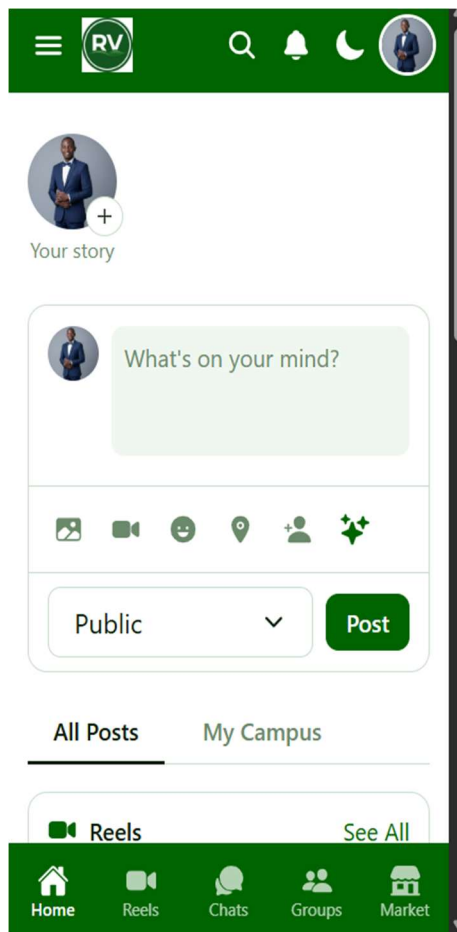

PROPOSAL FOR THE ADOPTION OF RVNP CAMPUS HUB / RVNP SOCIAL APP

A Unified Digital Platform for Marketing, Information Sharing, and Community Engagement

Prepared by: Davis Okoth

Company: HDM

Date: September 2026

1. Executive Summary

RVNP Campus Hub is a modern, all-in-one digital platform built specifically for Rift Valley National Polytechnic. It brings the best features of Facebook, Messenger, WhatsApp, TikTok, and Telegram into one application — redesigned for an educational institution.

It connects all five RVNP campuses — Main Campus, Nakuru City Campus, Kericho Campus, Mwachon Campus, and Kureisoi Campus — into one unified digital community.

Tagline: RVNP Connected

2. Main Purpose

The platform serves three core purposes:

2.1 Marketing of RVNP

Showcase RVNP programs, campuses, and achievements to the public

Attract prospective students through a live, interactive platform

Promote events, open days, and campus life

Give the institution a modern, professional digital presence

2.2 Sharing Official Information

Administration publishes announcements that reach all users instantly

Campus specific and department specific targeting

Emergency alerts and urgent updates

Event reminders and official communications

2.3 Community Engagement

Connect students, staff, and alumni across all five campuses

Enable student-to-student and staff-to-student interaction

Build campus pride through groups, hashtags, and badges

Provide a safe, moderated environment

3. Core Features

Social

Feed — Posts with text, images, videos, feelings, locations, and tags

Reels — Shortform vertical videos (TikTok style)

Stories — 24hour disappearing content

Reactions — 7 types (Like, Love, Care, Haha, Wow, Sad, Angry)

Comments — Threaded with replies and likes

Hashtags — Trending topics (RVNPSports)

Mentions — Tag users (@Ken)

Communication

Direct Messages — 1on1 chat with delivery ticks

Group Chats — Multiuser conversations

Group Pages — Interest based communities

AI Chat — Instant answers from HDM AI

Campus Life

Events — Official announcements from Admin/Staff

Marketplace — Buy & sell within campus

Campus Pages — Each campus has its own space

Friends & Followers — Build a social network

Badges & Leaderboard — Reward active community members

Safety & Admin

Privacy Settings — Full control over visibility

Content Moderation — Admin review of reported content

HDM Verified — Official badge for verified accounts

Full Admin Dashboard — Users, analytics, settings, backups

4. HDM AI — School Assistant

RVNP Campus Hub includes HDM AI, an intelligent assistant that acts as a 24/7 school representative.

What HDM AI does:

Answers questions about RVNP courses, campuses, admissions, and campus life

Available to registered users and guests — no login required

Helps students write posts, captions, and events

Analyzes comment sections for sentiment and key topics

Fully controlled by admin settings

This makes HDM AI a direct marketing tool — giving prospective students a friendly, always available information channel about the institution.

5. Benefits to RVNP

Benefit Description

Marketing -A live, modern platform that showcases RVNP to the world

Information - Instant official communication channel

Community - All 5 campuses connected digitally

Engagement -Higher student participation in campus life

Brand- Professional, modern image for the institution

Safety -Admin has full control over content and users

Data -Insights into student activity and trends

Cost- Readymade, no development cost to institution

6. Live Access

URL: <https://rvnpcampushub.pxxl.click>

A separate admin dashboard is available for staff and administration.

7. Recommendation

We humbly request approval to:

1. Adopt RVNP Campus Hub as the official digital platform
2. Use it for marketing RVNP to prospective students
3. Use it for information sharing — official announcements, alerts, and events

4. Brand it with RVNP identity (green, white, and red)
5. Grant Admin and Staff access for content management and moderation
6. Promote to students during orientation and registration

8. Conclusion

RVNP Campus Hub is more than a social app — it is a marketing engine, an information channel, and a community builder for Rift Valley National Polytechnic. It unites all five campuses under one digital roof, brings official communication directly to every student, and represents the institution professionally to the outside world.

It is Kenyan built, student first, and ready for immediate adoption.
